

Statement about Y Morfa Leisure Centre application to DECC Low Carbon Community fund

As a former pupil at a school just over the present County border in Rhyl, I am pleased to support initiative for a Low Carbon Community Challenge application associated with the Sports Centre next to the two Kinmel Bay primary schools.

The scheme proposed by Dr Stuart Anderson (whom I know personally) and his colleagues is a visionary one and will provide exciting facilities for young and old. It also takes into account important future requirements that will result from increased flooding in the Kinmel Bay area associated with sea level rise due to climate change.

Sir John Houghton CBE FRS
